CONSTRUCTED TOUGH YET EASY TO OWN

If you want to beat the heat this summer, there's no better way to cool the summer sizzle than in a DYNASTY pool from CORNELIUS.

Designed and built to the highest standards in the industry, the DYNASTY is carefully crafted to provide years of problem-free enjoyment. Three components form the solid, integrated structure of the DYNASTY—the wall, frame and sub frame.

The first component is a heavy gauge steel wall, which is hot-dip galvanized and treated with "Weatherizer" paint coating for additional protection. A decorative wall pattern is applied over this surface and is then treated with our Krystal Kote® sealant to protect it from weather elements and pool chemicals. Lastly, a convenient wide-mouth skimmer cut-out is incorporated.

The sturdy DYNASTY khaki-colored pool frame consists of a wide, 8-inch extruded resin ledge, coupled with a 7-inch extruded resin post and topped with a three-piece injection molded resin cap and post collar.

The sub-frame features a strong, extruded resin bottom track with injection molded resin lower post collar and bottom connector.

SIMPLE AND EASY INSTALLATION

As many CORNELIUS pool owners have discovered, if you can use a screwdriver, you can assemble your own CORNELIUS pool. No multi-sized washers or nuts are used. We've simplified assembly with just one large screw type for all the round pool elements.

PICK THE SIZE AND SHAPE THAT'S BEST FOR YOU

Whatever size of property you have, there's a DYNASTY pool to fit your yard and your budget. Choose from a wide variety of Round, A-Brace Ovals or NBS Ovals and beat the heat this summer!

Dynasty round - Khaki Maya wall
offered in 52 and 54 inches
